

# Ulm Scientific Prize presented to Dipl.-Math. Eva Jehlicka and Professor Dr. Günter Willmerding

On 24 July 1989, during the celebrations for „Schwörmontag“ when the Loyalty Pledge is taken by the Mayor, Ulm's Mayor presented a scientific prize of 10 000 DM to the Research Group Professor Dr. Günter Willmerding and Dipl.-Mathematician Eva Jehlicka for outstanding performance in research on a Driver-Vehicle-Environment System. This system runs on a computer simulated model and provides answers to current questions raised in the development of commercial vehicles. With the aid of the simulator it is possible to reduce the extent of practical laboratory tests and test runs.

Ulm, 24 July 1989  
The Mayor

The Mayor (r.) presents the prize to Eva Jehlicka (l.) and Günter Willmerding (m.)
